ANOTHER BLOW AT BLAINE, CONK-LING, ET AL.

NATIONAL NOTES.

THE POTTER COMMITTEE-IMPROVEMENT OF THE MISSISSIPPI RIVER - SCHURZ COMPLI MENTS HIMSELF ON THE INDIAN SERVICE -THE DEPARTMENT ROBBED OF A POR-TION OF ITS GLORY-NO COMPLAINTS RE-CEIVED FROM THE PENSIONED REDSKINS.

Washington, July 17 .- In the removal of the appointment clerk of his department, already mentioned in this correspond ence, Secretary Schurz did a very wise thing, and unquestionably intended to follow it up by sweeping changes in the force under kim. The first prominent victim is General Spear, commissioner of patents There is no special complaint against Spear -he has been investigated and not tound corrupt-but he is held not to have all the energy, varied information, and strength of character desirable in his important office. Besides, he is a close friend of Blaine, and the new policy of administration seems to be to displace the friends of the party

leaders. Blaine, I think, will accept with better grace than Conkling does, the slights put upon him by Mr. Hayes. It is said his equanimity will be severely tested soon by the recall of the only foreign minister in whose appointment he exercised influence.

Mr. Potter's committee will operate at two points-New Orleans and Atlantic Cityduring the remainder of this month. Those in Louisiana expect to finish the work there in three weeks. Those at Atlantic City will examine the visiting statesmen. It is nonsense to expect to get the whole truth out of those eminent gentlemen. They went down to Louisiana and Florida, knowing that the popular vote of those states was for Tilden, and with a determination to have the electoral votes cast for Hayes. They will not expose the means by which they induced scoundrels like Madison Wells, Tom Anderson, Jim Anderson, Weber, Jenks, Mrs. Jenks, Kellogg and others, to commit the necessary perjuries, forgeries and thefts. No one denies now that all these crimes were committed, and were necessary in order that Hayes might be made President, but does anybody suppose that Sherman, Noves, or any of the other beneficiaries will confess to having instigated the commission of crime? If the Atlantic City excursion is intended to give the visiting statesmen a chance to whitewash themselves and each other in public it

had better be abandoned. Elaborate preparations are being made for the work of improving the navigation of the Mississippi river. A liberal session of Congress and the preliminary work has been assigned to officers of the engineer corps of conceded ability. This is an expenditure no one objects to. Judicious improvements there will be permanent, and will benefit an enormously increased population ages hence.

Notwithstanding the intense heat of the last two weeks, the health of the public is excellent. The late board of public works conferred many benefits upon Washington, but none greater than the improvement in its sewerage. The board of health, just legislated out of office, was an efficient body in many respects, and to these two boards and to our unrivalled location, we are indebted for the blessing of good health in the most trying season.

SCHURZ ON THE INDIAN POLICY. Secretary Schurz to-day, on being asked his opinion as to the result of the consultation between the commission recently sent defeat. out to Dakota, accompanied by Commissioner Hoyt and the Sioux, said Mr. Hoyt's mission has not failed, as has been asserted, and objects mentioned in the letter of instructions have been complied with. I ought to add that the removal of the Sioux Indians would have taken place long ago had not congress so long delayed the appropriations for that purpose. The department asked for these appropriations at the October session, and then during the regular session several times by letters addressed to the speaker of the house, but without result. All promises made to these Indians have aly could not at Berlin and can not else- river.

been and are being complied with, and the Sioux chiefs have repeatedly expressed sat-isfaction with the manner in which the supplies are delivered to them, and also as to quality and quantity of these supplies.

Q.—Has not the discovery of the swindling

operations carried on at Crow Creek Agency by Dr. Livingstone been a surprise to you?

A.—Not at all. I knew all the details of it several weeks ago. The fact is that I had the case transmitted to the Department of Justice some weeks ago for the prosecution of the offenders, and it is now in the hands of the District Attorney. I notice that some newspapers speak of General Hammond as if he were an officer of the army, and as it these discoveries and disclosures had been made against the Indian Bureau. General Hammond is an officer of the Indian Bureau, and appointed last year by the President at my request as Superintendent of the Dakota Superintendency. I got wind of these transactions and reported them. He came to Washington and the whole campaign for the discovery of these things was planued in my office by Gen-eral Hammond, Commissioner Hoyt and myself. It is therefore the Indian service under its present management that made these discoveries, and great credit is due to Inspector Hammond's sagacity, courage and energy. I notice also that, whenever by efforts of the department these crimes are discovered, instead of giving the credit to those who make the discoveries, cries are made about the inefficiency of the manage ment of the Indian service, while these very discoveries, exposures and prosecutions are proofs of its efficiency. Such abuses have grown up in the course of years. Many of them have been discovered and laid bare by the present admistration, and no offender has been spared. The Crow Creek affair is not the only one; we have quite a number of persons connected with the Indian service as agents and contractors, under indictment in several parts of the country. We have not divulged all of our operations, because it is necessary to carry them on quietly until they are ripe for decisive action. There are other similar investigations now going on with the promise of like results. All those affected by and in fear of these operations are exceedingly anxious to get this business out of the hands of those who now manage Indian affairs and are on track of evil doers. The policy towards the Indians which humanity dictates and which is now followed, is to gather them upon reservations and try to make them self-supporting, as much as possible, by agriculture, stock raising and similar pursuits. It is a policy easily defined but very difficult to carry out. I think we are making fair progress, but it will require time to make it generally successful, and it can be made generally successful if not only the government but white citizens treat the Indians fairly. The greatest difficulty is that where the Indians get once fairly started in the direction of self-support. the white people want their lands and attempts are made to crowd them out. We can easily make the Indian service more economical, as upon this year's purchase, at annual lettings, we have already made a persevering effort can, as I think, make and keep the Indian service honest. The continual conflicts between the interests of Indians and the greed of white people, surrounding and crowding between them, presents a problem of difficult solution, and no

FOREIGN FLASHES.

mere change in the organization and control of the Indian service can dispose of it.

ITALY DISSATISFIED WITH AUS-TRIAN ACCESSIONS.

GREECE FOMENTING INSURRECTIONS IN THES-SALY AND EPIRUS-LIBERALS PREPARING TO OPPOSE BEACONSFIELD'S POLICY-COM-MISSIONERS APPOINTED TO VISIT THE RHODOPE DISTRICT. Paris, July 17 .- Messrs. Pollock and Lisnet, vice-presidents of the American deputa-

tion to attend the congress of the Franco-

American commercial treaty, have arrived at Havre. The conference of French merchants will commence August seventh. LONDON, July 17 .- A commission appointed by ambassadors at Constantinople will leave Thursday in a Turkish steamer to investigate the alleged Russian and Bulga-

rian massacres in the Rhodope district. Prince Labanoff, the Russian Ambassador, has informed the porte that the Russian authorities have been instructed to follow the recommendations of Rhodope. Commissioner Layard, the British ambassador, has invited various ambassadors to a second conference to discuss a proposal for an increase of import duties at Constantinople, and for the relief of refugees. The United States minister dissented when the proposition was made before. Commissioners to determine the frontier of Bulgaria in accordance with decisions of the Berlin congress leave Constantinople this week.

THE OPPOSITION. LONDON, July 17 .- The statement published in the Daily News yesterday that the opposition leaders had decided to oppose the policy of the Anglo-Turkish convention and to take the sense of parliament on the subject was premature. Opposition leaders will await Lord Beaconsfield's statement in parliament to-morrow, before determining this policy. It is unlikely that the Liberals will approve or support the government's measures. Leading Liberals and Radicals will undoubtedly disclaim the responsibility for financial and political results of the Anglo-Russian treaty, but it is not certain that the official leaders of the

ITALY RESTLESS.

London, July 17.—Radical agitation in in favor of the acquisition of Tretino Et Ceter is becoming so prominent that the government is apprehensive of its effect in Austria. The manifesto published in the Dirito, ministerial journal, is an attempt to turn public attention from the dangerous subject of Austria's success to that of the English acquisition of Cyprus, the discussion of which is not likely to cause trouble, especially as the manifesto declares that It-

where attempt to hinder British action, which all the other powers accepted. A dispatch from Athens says Italy is negotiating with Greece for the cession of a portion of her territory for occupation in case Turkey should refuse rectification of the Greek frontier, as suggested by the con-

SALE OF THREE PER CENTS IN THE BOURSE. LONDON, July 17.—The sale will be com-menced on the Paris bourse to-day of the new French loan of twelve million dollars, in the form of three per cent annuities.

Apprehension that the loan will be made the basis for retirement of the five per cents depresses the latter. The fall in consols is due to capitalists trying to make other use of their money in consequence of renewal of financial and business activity.

INSURRECTION OF THE GREEKS. London, July 17.—The Greeks are maintaining a state of insurrection and anarchy in Thessaly and Epirus, fearing that pacification there would enable the Turks to indefinitely postpone a compliance with the directions of the treaty of Berlin. The ambassadors of the powers are delaying the dispatch of Turkish troops in iron-clads to the Greek coast pending the efforts to set diplomacy in motion.

BEACONSFIELD.

LONDON, July 17.—All accounts agree that yesterday's reception of the plenipotentiaries was magnificent. Lord Beaconsfield will visit the queen at Windsor to-day, the queen having countermanded preparations for departure for Osborne in order to receive the earl. There will be renewals of vesterday's ovations at Paddington and Windsor. The mayor and corporation of

Windsor will present an address. THE BOUNDARY QUESTION.
LONDON, July 17.—Houses and property at Beyrout and other Syrian villages have risen greatly in consequence of English oc-cupation of Cyprus. It is not believed that war with Greece will result from angry disappointed feeling of Greeks at the Berlin treaty, but it is thought that the boundary question can only be settled upon by intervention of the powers. Delyannin, Greek envoy to Berlin, now in London, is bringing the question to a settlement through British influence.

London, July 17.—The Liverpool July meeting opened yesterday. The race for the Liverpool cup took place to-day, and was won by Jardine's four-year-old chesnut colt Strathmore. BULLION WITHDRAWN.

THE LIVERPOOL RACES.

London, July 17.—Amount of bullion withdrawn from the Bank of England on balance to-day, £40,000. THE BURIAL OF THE QUEEN. Madrid, July 17.—The funeral of the late Queen Merce-les of Spain takes place

to-day. KING WILLIAM AND HOEDEL. London, July 17 .- A dispatch from Berlin states that Emperor William is desirous of sparing the life of Hoedel, and that unless the wishes of his majesty be overruled, Hoedel will be sent to prison in a fortress. perhaps for life and perhaps for a term of years. But Bismarck and the crown saving of \$240,000, as against last year; the prince are both opposed to this clemency goods and supplies being just as good, if and insist that justice not only to himself not better, than last year, and a strong and but to the other crowned heads of Europe

demands that both Hoedel and Nobling be executed. ARRIVED SAFELY. London, July 17 .- The steamship Montana, of the Williams & Guion line, which sailed from New York for Liverpool via Queenstown on the 2d inst., and about the safety of which considerable apprehension has been felt for some days, passed Crook Haven at 4:45 this morning, after being fifteen days out. All on board were well,

and no damage to the ship is reported.

GERMANY AND THE VATICAN. London, July 17 .- A dispatch from a well-informed source at the Vatican states that negotiations between the pope and the German government have again been resumed. The basis of them appears to be a proposition on the part of Germany that without a formal repeal, the Falk laws shall be allowed to become a dead letter, the public prosecutor being directed to take no steps for their entorcement, but to allow them to lapse into forgetfulness, as was the case in England with the ecclesiastical titles bill, which was daily violated for twenty years without a single prosecution being instituted under it.

IN THE BEST OF TERMS. Berlin, July 17 .- It is semi-officially announced that the relations between England and France are of a most friendly character, as both countries have separate interests to protect in the east. CONGLOMERATED SENSATIONS.

London, July 17.—A dispatch from Bucharest says there is a crisis in the ministry. Dispatch from Constantinople says a Mohammedan insurrection has broken out in Crotia. Dispatch from Rome says that great excitement exists there, and there have been anti-English demonstrations. Dispatches from Paris says that the Prince Imperial has gained 20,000 frances damages against the Siecle for libel. DESTROYED BY FIRE.

stroyed by fire to-day, and much suffering has been caused. MILES' SECOND FIGHT.

GENEVA, June 17 .- The Village of Link,

in the canton of Berne, was partially de-

San Francisco, July 17.-Dispatches concerning Miles' second fight say Miles struck the enemy at Umatilla agency, and after a stubborn fight of seven hours, the entire command, including Bender's company, charged the enemy, driving them in confusion several miles. Miles' loss was two wounded and none killed. The enemy lost four killed and a large number wounded. The news from the front, by courier to opposition will force a division wherein they are sure to encounter an overwhelming night with infantry. Forsyth is in command of the cavalry, which camped last evening five miles the other side of Meacham's camp. It is not true that the Uma-Italy against Austrian gains at Berlin and | tillas have joined the hostiles. Another band of one hundred warriors have joined Forsyth, and fought the hostiles yesterday and brought in twenty-two scalps and three hundred head of horses. They will fight with Forsyth again to-day. Forsyth has about 400 men with him. Wheaton has about the same number; this includes some volunteers. Lieut. Sanford's command left Lagrande to-day with twenty-five men for Stark's place, on the north of the Powder
